SOLAR PANEL DETAIL

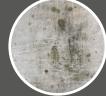

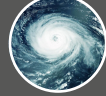

**Up to 100% of the grid capable.

INTEGRATED NO GLASS SOLAR ROOF SYSTEM (OPTIONAL)

Eco-One Homes have been engineered to endure most types of GEO EVENTS. In addition we have added options that can prevent expensive annual maintenance costs and most importantly, lower your expenses for insurance, electricity, and other pesky costs that come with homeownership. As we say, it is the way your home is built that will help reduce your out of pocket expenses for many years to come.

SOME BASIC DIFFERENCES

	Eco-Protection	Conventional Construction
 Termite free	Yes	No
 Mold free	Yes	No
 Eco Friendly	Yes	No
 Hurricane Resistance	Absolutely	Minimum

OPTION – SOLAR PLUS OFF GRID 50% SOLAR

(1 day, 2 day, 3 day) Emergency stand by
*Up to 30% federal rebate of system.

** Monthly Credit By Metered Exchange
(By Upgrade Level 2)

**Check by january next year of the power
not Used (By upgrade level 2)

**Average savings of \$180.00 monthly.
With off grid 100% "Option" vs Emergency only
(Ask about upgrade level 2)
